REPORT FOR THE COURSE ON

The Department of Computer Science and Engineering organized a five days course on "Mobile Application Development" on 8th December 2015 to 15th December 2015 for the students of III and IV year CSE. Mrs.U.Selvi from Sri Technology was the resource person for the occasion. The program started with welcome address given by Mrs.R.Tharani, Assistant Professor, Computer Science and Engineering.

This report details the course on mobile application development held for the third and final year students of the computer science and engineering department, conducted on 8th to 15th of December. The resource people from the industry were welcomed with a welcome address by the Head Of the Department, Dr. G. Rajeev Suresh Kumar. The session was started with a brief introduction to android application. She guided the students from the scratch. She gave the students a brief introduction to Java and taught how to run the application on the very first day. During the next days , she introduced the students to all the basic functions like buttons and fields. They made it a point to make every student understand the basic concepts of android by explaining the standard structure of an android application. Finally, the vote of thanks was proposed by Prof. K. Siva Kumar.

Network Security Course outline

A. Student Learning Outcomes

By the end of this course, students will be able to:

- Explain concepts related to applied cryptography, including plaintext, ciphertext, symmetric cryptography, asymmetric cryptography, and digital signatures.
- Explain the theory behind the security of different cryptographic algorithms.
- Explain common network vulnerabilities and attacks, defense mechanisms against network attacks, and cryptographic protection mechanisms.
- Outline the requirements and mechanisms for identification and authentication. Identify the possible threats to each mechanism and ways to protect against these threats.
- Explain the requirements of real-time communication security and issues related to the security of web services.
- Explain the requirements of non-realtime security (email security) and ways to provide privacy, source authentication, message integrity, non-repudiation, proof of submission, proof of delivery, message flow confidentiality, and anonymity.

(Mr. Krishnaswamy)

REPORT ON ADVANCES IN AGRI PRODUCE DRYING

The Department of Food Technology organized a certificate educational Career Program on **ADVANCES IN AGRI PRODUCE DRYING**, from 19/12/2016 - 22/12/2016. The resource person for this program was **Mr. Krishnaswamy, Sakthi Soyas Pvt Ltd., Pollachi**. The program started with the prayer song. The welcome address was given by Mrs. J. Esther Hellan Prasanna, Assistant Professor, Department of Food Technology. The Felicitation address was given by Dr.G Ramesh, Principal of JCT College of Engineering and Technology, Coimbatore. The Introduction about the Chief Guest was given by Ms. Anusuya.S, 2nd year Food Technology. The chief guest first gave an introduction about how this concept was used during ancient times which surprised everyone to know how it was implemented in the ancient times.

He explained the methods of analysis of foods and food products to identify and estimate its chemical components, its compliance to standards, and detection of adulterants in foods.

The students learn the analytical methods of estimation of protein, total fats, and fiber in various food samples. They perform experiments using UV Visible -Spectrophotometer, Thin layer chromatography, column chromatography and distillation setup. The atmosphere of the certificate educational Career Program was quite free. We learned a lot from the 4 days Program and were satisfied with the answers from the speaker. Ms.Smrithy, 2nd year Food Technology concluded with a vote of thanks.
