ABOUT JCTCET

JCT College of engineering and Technology is one of the colleges started in private sector. It was established in 2009 by Shri Jagannath educational health and charitable trust. The College is growing leaps and bounds in every sphere, year after year. The College is located in an environmentally unpolluted area, just at the outskirts of Coimbatore. The Institution is successfully marching on nine years of its service with excellent state of the art facilities and committed. The Institution is approved by AICTE, ISO 9001: 2008 certification NAAC & NBA accredited adds another feather to the crown of the Institution.

ABOUT THE DEPARTMENT

The Department of Civil Engineering is one of the oldest Departments in JCT. A well-qualified and highly experienced team of staff members add strength to the department. The department offers U.G and P.G (Structural Engineering) programmers. The faculty and students of the department are dedicated to work in the current needs of the industry and have the ability to improve The Structural lab is well equipped and involves in testing of building materials, non-destructive testing, and soil testing. It contains Structural test floor & Loading frame of 200, 100 and 30 T capacity for testing expertise in fields in Civil Engineering.

VISION

To become leaders in Civil Engineering Education, to meet the most onerous challenges in construction, sanitation and environmental at global level .

MISSION

- To produce outstanding Civil Engineers with highest ethical values.
- To provide State-of-the-Art learning environment.
- To interact with Industries and address issues related to infrastructure and environment for sustainable living.

ABOUT THE CONFERENCE

Professionals with an engineering and technology orientation form an ethical group of knowledgeable workers in the innovative system.This conference aims at creating a forum for researchers,scientists,engineers and practitioners to share the knowledge in Recent innovations in civil engineering and technology which bring them under one roof to explore new horizon of innovative technologies .

SCOPE OF THE CONFERENCE

The National conference on "Recent innovations in civil engineering &Technology" aims to bring together the leading Academicians,Scientists,Research scholars and industrialists in the various fields of civil engineering in and around the country to exchange new ideas, share knowledge ,and explore recent developments in the field of construction industry to implement new technologies in future.

Report On National Conference –Ricet 2k19

The 3rdConference on "Recent Innovation in Civil Engineering & Technology (RICET-2019)" was organized by Civil Engineering Department at Seminar Hall on 16.3.2019 in association with IJSER & ICI. The programme was started with Holy prayer song. Prof. A. Kumar, HoD/civil, delivered the welcome address and welcoming the gathering. Dr.G.Ramesh, Principal, delivered the Presidential address signifing the importance of the conference.

Dr.A.Sudhahar, secretary ICI-CBEC played the Chief Guest role felicitated by Dr.G.Ramesh, Principal, made brain storming speech on the innovative materials used in civil Engineering highlighted the importance of research and the role on students for their progressive life. The speech was very much useful and admired by students attended from various institutions from Tamil nadu, Kerala, Andhra Pradesh by a gathering of 82 outsides members and 114 Students benefitted with the inspiring speech. The conference ended with vote of thanks given by Prof.V.Murugesh, coordinator gratifying the grand success of the function.

Dear Sri Mr.T T Hari,

Greetings from JCTCollege of Engineering and Technology.

JCT College of Engineering and Technology is pleased to invite you to workshop for department of computer science and engineering.

JCT College of Engineering and Technology is started in the academic year 2009-2010 with an objective of providing education to all especially to the down trodden and rural population with 4 Branches of Engineering, at present(2017-2018) with 9 Branches.

We request your honorable presence as Chief Guest and Resource Personfor the workshopfor department of computer science and engineering,which is to be held on **08thMarch 2019**at our campus. We will be grateful if you ornate our function as Resource Person by your inspiring speech in the title **"Cyber Security In Everyday Life"**.I humbly request you to accept our invitation.

We look forward to your positive confirmation of our invitation to this special function.

Thanking you.

Report on Cyber Security in Everyday Life

The Department of Computer Science and Engineering organized a workshop on **Cyber Security in Everyday Life,** on 8th March 2019 at 10:00am. The resource person for this program was **Mr.T T Harish**, Honorary Chair Member, **National Cyber Defence Research Centre, Chennai**. The program started with the prayer song. The welcome address was given by Mr.K Sivakumar, Assistant Professor, Department of Computer Science and Engineering. The Felicitation address was given by Dr.G Ramesh, Principal of JCT College of Engineering and Technology, Coimbatore. The introduction about the Chief Guest was given by Rohith R, 3rd year Computer Science and Engineering. The chief guest first gave an introduction about how this concept was used during ancient times which surprised everyone to know how it was implemented in Ramayana. He then explained about the 3 major concepts of cyber security by illustrating a power point presentation.

He went through each concept with examples and related stories, how security was affected in various fields. How to be secure in social media and cyber world were also included. He said about the applications to detect the hidden cameras all around us. He insisted about how computers are being affected by malwares and how its functioning changes after affected by such malwares. Then he talked about encrypting data while exchanging from device to device. He talked about how women folks should be aware of increasing cyber crimes and how it should be prevented. He talked about the job opportunities related to cyber security.

The atmosphere of the workshop was quite free. We learned a lot from the workshop and were satisfied with the answers from the speaker.

Mr.Parthan A.S, Chairman, Association of Department of Computer Science and Engineering concluded with a vote of thanks.

TWO DAY NATIONAL LEVEL WORKSHOP

Two day National level Workshop was conducted on "Advance Technology in solar Systems" Organized by Department of Electrical and Electronics Engineering , more than 24 student and 31 faculty members from various college are participated National level workshop on 10th & 11th January 2019 at JCT college of Engineering and Technology ,Computer Laboratory-I.

The workshop conducted was very much useful, imitated motivations for the students as well as the staffs by conducting theory and practical section about solar panel. The Industrial highlighted the students to became entrepreneur in solar system, for that central government under " KHADI & VILLAGE INDUSTRIES COMMISSION" support students for free one month training with a Central government certificate and Stipend of Rs.3000/month .

MASS SOLAR SYSTEMS PRIVATE LIMITED – is a leading Manufacturer Solar system. It was started on August 2010 in well equipped industrial Estate, the southern part of Manchester of south India – Coimbatore. The company have Strong team, the team includes M.E.Solar energy graduate from Anna university Chennai and also has sound Knowledge and expertise engineers from solar, electrical ,Electronic and mechanical field and Solar PV modules ,Solar street light, Solar water heaters, Solar roof top power plant, Solar water pumping systems, solar fencing are the major product manufacturing from this Industry .

MAS also provide solar energy Technical Training programme and awareness to students, employees ,rural women and general public.MAS also engaged and tie ups with many many educational institutions and Industries.

The Executive Trainees Mr.C.Sivakumar and Mr.M.Nambidhas Welcome addressed by G.Ravivarman (Assistant professor/EEE) , Honoring chief guest by Prof.K.Geetha (HoD-EEE),Inaugural Address by Mr.S.Manikandan,Vote of Thanks by Ms.J.Priyadharshini.

Introduction

The development of today's electricity grids into smart grid is an important element for the sustainable economic, environmental and societal growth worldwide. This paradigm shift requires sophisticated power conversions. These innovative technologies allow for better integration of renewable energy sources and more efficient electrical transmission across the whole energy grid. This workshop will provide scientific and professional interactions for the advancement of solar energy and integration of solar energy in smart grid.

Course Content

- Basics of solar energy
- Types of cell
- High efficiency multi crystalline cells.
- Power converters for smart grids.
- Future solar energy in transmission line
- By pass technology in smart grid with solar power

Institute Vision

To emerge as a Premier Institute for developing industry ready Engineers with competency, initiative and character to meet the challenges in global environment.

Institute Mission

- To impart state-of-the-art engineering and professional education through strong theoretical basics and hands on training to students in their choice of field.
- To serve our students by teaching them leadership, entrepreneurship, teamwork, values, quality, ethics and respect for others.
- To provide opportunities for long-term interaction with academia and industry.
- To create new knowledge through innovation and research.

Department Vision

Emerging as a Center of Excellence in Electrical and Electronics Engineering education for studies and research.

Department Mission

- To create state-of art facilities for teaching, learning, laboratory practices and research.
- To develop competent engineers through value addition programs, products incubation, interactive seminars, communication programs, group discussions, trainings, etc.
- To initiate collaborative relationships with Industries and Institutions for real life experiences.

About The College

JCT College of Engineering and Technology was started in the year 2009 and run by Shri Jagannath Educational Health and Charitable Trust, under the able guidance and strong patronage of Thiru.S.A.Subramanian, Chairman and respected Sri.R.Durga Shankar, Secretary. The college has a congenial and well-developed campus located at Pichanur at the foothills of the Western Ghats in a serene, eco friendly lush green environment. The college has developed excellent facilities and resources such as spacious classrooms, seminar halls, well-equipped laboratories, workshops, well-stocked libraries, dedicated high speed broadband Internet connectivity and well-qualified faculty. The institution strives hard to produce high caliber socially responsible Engineers. The institute offers nine UG and four PG programmes in Engineering & Technology.

About The Department

The Department of Electrical & Electronics Engineering was established during 2010 and offers both UG and PG Programmes. It has good infrastructural facilities which include Electrical Machines, Power- Electronics & Drives, Measurements and Instrumentation, Power system simulation and Special Electrical Machines Laboratories. The Department laboratories are equipped with the latest machinery and equipment and latest computer hardware and software. The Department has well qualified and dedicated faculty members in various specialized areas of Electrical and Electronics Engineering. The department is accredited by NBA.

ABOUT THE INSTITUTION

JCT College of Engineering and Technology is one of the colleges started in private sector. It was established in 2009 by Shri Jagannath Educational Health and Charitable Trust. The College is growing leaps and bounds in every sphere, year after year. The college is located in an environmentally unpolluted area, just at the outskirts of Coimbatore. The Institution is successfully marching on 9th year of its service with excellent state of the art facilities and committed. The Institution is approved by AICTE, ISO 9001: 2008 certification and NAAC accredited adds another feather to the crown of the Institution.

VISION

To emerge as a premier institute for developing industry ready engineers with competency, initiative and character to meet the challenges in global environment.

MISSION

- To impart state-of-the–art engineering and professional education through strong theoretical basics and hands on training to students in their choice of field. .
- To serve our students by teaching them leadership entrepreneurship, team work, values, quality, ethics, and respect for others.
- To provide opportunities for long term interaction with academia and industry.
- To create new knowledge through innovation and research.

ABOUT THE DEPARTMENT

The Department of Civil Engineering is one of the oldest Departments in JCT. A well-qualified and highly experienced team of staff members add strength to the department. The department offers U.G and P.G (Structural Engineering) programmers. The faculty and students of the department are dedicated to work in the current needs of the industry and have the ability to improve. The structural lab is well equipped and involves in testing of building materials, non-destructive testing, and soil testing equipments with expertise persons to conduct field testing on consultancy basis.

VISION

To become leaders in Civil Engineering Education, to meet the most onerous challenges in construction, sanitation and environment at the global level

MISSION

- To produce outstanding Civil Engineering graduates with highest ethical values.
- To provide state – of – the – art learning and laboratory environments.
- To interact with industries and address issues related to infrastructure and environment for sustainable living.

ABOUT THE WORKSHOP

This one day National workshop on "Construction demolition waste, M-sand and In-active Industrial wastes management and its Engineering Applications" is organized to understand the present trends and problems encountering in construction industries, materials scarcity and its substitution, reuse of industrial wastes using engineering application to minimize the problem to environment and cost saving.

TOPICS TO BE DISCUSSED

- Present trends on construction industries
- Generation of waste materials like demolition waste, etc.,
- Scarcity of river sand and substation with M-sand
- Inactive industrial wastes materials and its role on environment

OUTCOMES

The participants would be able to overcome the field difficulties in raw materials storage with substitution materials and also reuse of industrial wastes into useful construction materials using advanced technology.

REGISTRATION FEE

The fees structures of the course includes course kit, lunch and Refreshments

Industry delegates	- Rs 500/-
Academicians / Research scholars	- Rs 300/-
UG / PG students	- Rs. 200/-

IMPORTANT DATES

WORKSHOP 12.2.2018 (9.30 AM – 4.30PM)

REGISTRATION DETAILS

The Registration fee can be paid in the form of Demand Draft in favour of " ThePrincipal,JCT " payable at Coimbatore. The registration form and DD should reach the Organizing Secretary on or before 9th February 2018. Spot registration is permitted on receiving prior information through E- mail.

REPORT ON ONE DAY WORKSHOP

A National Workshop was conducted on "Construction demolition waste, M-sand and In-active Industry wastes management and its Engineering Applications " for the students of civil engineering on 12th FEB 2018 at civil engineering seminar hall. It was chaired by the Principal, Chief guests Dr.H.Lakshmi kanta, Environmental Officer, Karnataka pollution Control Board and Dr.A.Sudhakar, Chief Consultant Dimensions, Secretary ICI, Coimbatore Centre. The workshop conducted was very much useful, imitated motivations for the students as well as the staffs. The topic highlighted the need for effective management of wastes arising out in building and industries adopting engineering application for the reuse. More than hundred delegates from various states namely Kerala, Karnataka, and Andhra Pradesh were presented got benefited, fulfilling the objective of the workshop.

ABOUT THE INSTITUTION

JCT College of Engineering and Technology is one of the colleges started in private sector. It was established in 2009 by Shri Jagannath Educational Health and Charitable Trust. The College is growing leaps and bounds in every sphere, year after year. The college is located in an environmentally unpolluted area, just at the outskirts of Coimbatore. The Institution is successfully marching on 9th year of its service with excellent state of the art facilities and committed. The Institution is approved by AICTE, ISO 9001: 2008 certification and NAAC accredited adds another feather to the crown of the Institution.

VISION

To emerge as a premier institute for developing industry ready engineers with competency, initiative and character to meet the challenges in global environment.

MISSION

- To impart state-of-the-art engineering and professional education through strong theoretical basics and hands on training to students in their choice of field.
- To serve our students by teaching them leadership entrepreneurship, team work, values, quality, ethics, and respect for others.
- To provide opportunities for long term interaction with academia and industry.
- To create new knowledge through innovation and research.

ABOUT THE DEPARTMENT

The Department of Civil Engineering is one of the oldest Departments in JCT. A well qualified and highly experienced team of staff with strength to the department. The department offers U.G and P.G (Structural Engineering) programmers. The faculty and students of the department are dedicated to work in the current needs of the industry and have the ability to improve. The structural lab is well equipped and involves in testing of building materials, non-destructive testing, and soil testing equipments with expertise persons to conduct field testing on consultancy basis.

VISION

To become leaders in Civil Engineering Education, to meet the most onerous challenges in construction, sanitation and environment at the global level

MISSION

- To produce outstanding Civil Engineering graduates with highest ethical values.
- To provide state – of – the – art learning and laboratory environments.
- To interact with industries and address issues related to infrastructure and environment for sustainable living.

ABOUT THE WORKSHOP This one day National workshop on "Repairs and Rehabilitation of building and green building concepts" is organized to understand the present trends and problems encountering in maintenance of buildings,repair and rehabilitation ,advanced techniques and application for maintanace of buildings .

TOPICS TO BE DISCUSSED

- Present trends on construction industries
- Problems in maintenance
- [illegible]
- [illegible]

OUTCOMES

The participants would be able to overcome the field difficulties in maintenance of building, repair and rehabilitation of building and green building concepts to make the construction industry into maintanace free buildings

REPORT ON GUEST LECTURE ABOUT BIGDATA AND ITS ISSUES

The Department of Computer Science and Engineering organized the seminar about BIG DATA AND ITS ISSUES on 6th march 2018 at 9:30AM. The resource person for this program was Mr.P.Shalinie, Technical associate, Elysium Academy pvt.ltd, Coimbatore, Tamil Nadu. The program started with the prayer song. The welcome address was given by Dr. G. Rajiv Suresh Kumar, Head of Department of Computer Science and Engineering. The chief guest first gave an introduction about the "BIGDATA AND ITS ISSUES" which gave everyone a clear view about BIG DATA. She then illustrated the 3v concept and about business intelligence which helped the students to understand.

She gave a detailed explanation about the big data with business intelligence concept. The big data helps the business intelligence to work. Business predictions are made easy with the predictive analysis. HADOOP which got its name from a yellow stuffed elephant. The execution through map phase and reduce phase was explained.

Finally, Mr.K.Sivakumar, Associate professor gave a vote of thanks and concluded the session.

ABOUT THE INSTITUTION

The College was established by the Shri Jagannath Educational Health and Charitable Trust, a charitable organization in the academic year 2009-2010. JCT College of Engineering and technology is an ISO 9001:2008 certified institution, Approved by AICTE, New Delhi and affiliated to Anna University, Chennai. JCTCET is in its ninth successful year and it is marching ahead towards achieving the vision and mission of our chairman Shri. S.A. Subramanian, under the guidance of our secretary Shri. S.Durgashankar, and our beloved principal Dr. G.Ramesh. The human resource is the pillar of strength to the institution with the dedicated and committed faculty member to impart quality education to student community. JCTCET has a unique focus on integrating the day's knowledge with modern scientific practices with a global output. The college offers nine U.G courses and four P.G courses.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering is committed to provide the state-of-art technical education to the tomorrow's technocrats through dedicated quality teaching. Our department laboratories are equipped with latest technology hardware and software in the field of VLSI, Embedded system, Digital signal processing, Analog and digital communication, Optical Fiber, Microwave, and Electronics system Design Laboratory. The department has excellent infrastructure facilities with highly qualified and devoted faculty members specialized in the areas like VLSI, Embedded systems, Optical Communication, Communication systems and Applied Electronics.

ABOUT THE LOCATION

The college is situated in Pichanur, Velandhavalam road, 5 kms from KG Chavadi and 18 Kms from Coimbatore Central Bus stand. The nearest railway station is Coimbatore junction.

TOPICS OUTLINE

- Signal Processing Techniques
- Fundamentals of MATLAB programming
- Hands on training using signal processing Toolbox
- IIR & FIR Filter Design
- Signal Generation
- Signal Analysis
- Multirate Signal Processing
- Signal Processing Requirements for 5G
- Simulink using signal processing

ABOUT THE RESOURSE PERSON

Received B.E. Degree in Electrical and Electronics Engineering from Govt. College of Technology, Coimbatore in the year 2001 and M. Tech., Degree and PhD in Power Electronics from VIT University, Vellore in the year 2004 and 2013 respectively. Currently working as **Associate Professor** in the School of Electrical Engineering at VIT University, Vellore and Active Researcher in the Power Control Research Group. Worked as Asst. Professor-Senior, Senior R&D Engineer and Senior Application Engineer in the power electronics, renewable Energy and electrical drives field for more than 10 years. Published/presented 120+ papers in national and international journals/conferences. Also co-authored/co-edited 4 books/chapters and 10 technical articles on power electronics applications in renewable energy and allied areas.

ELIGIBILITY AND SELECTION

Faculty and PG scholars from AICTE approved Institutions. The total intake is 30 and selection will be based on first come first serve basis.

TRAVEL AND ACCOMODATION

No TA / DA will be provided. Accommodation will be provided for external participants in the college premises.

HoD of ECE Dr.V.J.Arulkarthick welcomes the gathering followed by the presidential address of principal Dr.G.Ramesh. Chief Guests gave the inaugural address on core industrial needs, expectation from the engineers for molding the engineers.The Inaugural function was concluded with the vote of thanks by Miss.S Saranya, Final Year of ECE Department.

The function was followed by a hands-on training on the topic "**MATLAB in Signal Processing**" by the resource person Dr.S Thangaprakash, Professor & Head, Department of Electrical & Electronics Engineering, SVS College of Engineering, Coimbatore for the participants.

In this the topics covered were

- ✓ Introduction to MATLAB .
- ✓ Vectors and Matrices
- ✓ Built in functions
- ✓ Solving Polynomial Equations
- ✓ Differentiation, Integration
- ✓ Design Specification of Systems.
- ✓ Design of Filters.
- ✓ Design of simple filter to complex control system..

Hands-on Training using MATLAB

- ✓ Modeling of mathematical systems.
- ✓ Modeling of system using MATLAB.
- ✓ Fundamentals of Simulink Modules.
- ✓ Simulink for System and Algorithm Modeling.
- ✓ Simulink for Engineering Applications
- ✓ Real Time Applications in signal processing.

The function was concluded with the valedictory function .Principal distributed certificates for all the participants.

Respected Sir,

"Greetings from the Department of Food Technology, JCT college of Engineering and Technology"

Our second National Conference "**NUTRO 2K18 – Nutritional security through research and development in food**" has been scheduled on March 23, 2018. We will be very happy to have your esteemed presence as a chief guest for our conference. Your support will make our students and all the participants to gain, share and update their knowledge about importance of food technology. We are expecting your favourable reply.

Subject: Invitation of Mechanical Engineering Department Seminar on Computational fluid dynamics–reg.

Dear Mr.Ramprasanth,

We are Pleased to invite as a Chief Guest for our Mechanical Engineering Department Seminar on **11.09.2017** in JCT College of Engineering and Technology, Coimbatore. Your expertise in this field of work will be excellent addition to the program on **COMPUTATIONAL FLUID DYNAMICS** as many of our students will look forward to hearing and learning from your work. It is honor to invite as the guest speaker for a talk on **COMPUTATIONAL FLUID DYNAMICS** as we aware of your great contribution in the field of work.

We look forward for your positive response.

Seminar on "Computational Fluid Dynamics"

Department of Mechanical Engineering organized a seminar on "**Computational Fluid Dynamics**" on 11/9/17 in seminar Hall. **Mr.Ramprasanth,** Design Engineer, Max CADD, Coimbatore, was the Invited Guest. His presentation covered various modules of the software. He has thrown light of new opportunities.

The **N.S.VijayKumar, Assistant Professor** invited the Guest and **HOD/Mechanical** gave vote of thanks.

1st INTERNATIONAL CONFERENCE ON NEW SCIENTIFIC IDEAS AND INNOVATIONS IN ENGINEERING AND TECHNOLOGY

APRIL 5th, 2016

Organized by
Department of Mechanical Engineering , Department of Automobile Engineering and Department of civil Engineering

JCT COLLEGE OF ENGINEERING AND TECHNOLOGY

The management strives hard to enhance the professional knowledge, skills and attitudes of educators, so the they might in turn improve the learning process of students. The college aims at developing a deep understanding of the human values and social concerns amoung the engineering graduates.

Students will be encouraged to get equipped and sensitized to understand full implications of thier decisions, actions and every inactions. Above all the college will promote Technical education to meet the requirements of a developing nation in the context of global concern at the thresold of the twenty-first century.

A teamof educated, enlightenced, experienced technocrates with vision, firmly determined to promote high quality of education will strive to provide every facility for achieving excellence.

ABOUT THE DEPARTMENTS

ABOUT THE DEPARTMENT OF MECHANICAL ENGINEERING

This is a discipline that involves the application of pmciples in analysis, design, manufacturing and maintenanceof mechanical systems. Mechanical engineers use the principles of mechanics, kinematics, thermodynamics and energy in the design and analysis of automobiles, aircrafts, heating and cooling systems, manufacturing plants, industrial equipments and machineries.

ABOUT THE DEPARTMENT OF AUTOMOBILE ENGINEERING

Automobile Engineering is one of the most challencing career option for younger generation. Due to demand and passion on vehicles, automobile engineershas lot to many opportunities in india as well as abroad. It is the study of engineering the deals with designing, manufacturing, repairing and servicing of the vehicles.

ABOUT THE DEPARTMENT OF CIVIL ENGINEERING

Civil Engineering is professional engineering discipline that deals with the design, construction, and maintenance of the physical and naturally built environment, including works like roads, bridges, canals, dam's, and build ns. Civil engineering is the oldest engineering discipline after military engineering, and it was defined to distingush non-military engineering from military engineering.

ABOUT THE CONFERENCE

The focal Theme of this National conference is "Multidisciplinary Research Approach for the accomplishment of Academic Excellence in Higher and Technical Education through Industrial Practices". The objectives is to make the lives of commen person easier and comfortable through the application of various Section / Disciplines by way of high quality research in the academic sector through industrial practise. Therefore, The National Conference - 2016 hopes to bring together academicians, scientists, researcher, managers, administrators, experts from industry/ies, engineers from various sectors and students of sections/Disciplines who have recognition for thier achievements. To disseminate information about such achievements, & to provide a platform for discussing research with potential foe application in the service of mankind, such International Conference would be a milestone for all of us.

TOPICS ON MECHANICAL ENGINEERING

- Alternate Materials and Advanced Techniques
- Internal Combustion and Air-conditioning
- Heat and Mass transfer
- Computational Fluid Dynamics
- Renewable and Non Energy Sources
- Alternative Fuels
- Supply chain management
- Nano-Materials and manufacturing
- Foundry / casting / welding /corrosion
- Advanced Manufacturing Process
- Total Quality Management
- World class Manufacturing
- Mechatronics
- Modeling and Simulation of system / process
- CAD / CAM / CIM / FEM
- Optimization Techniques
- Automation and Robotics
- Industrial Engineering
- Other related areas

TOPICS ON AUTOMOBILE ENGINEERING

- Alternate Materials and Advanced Techniques
- Advanced in vehicle and smart materials
- Composites and smart materials
- Tribology of automative components
- Bio,Nano particles and fual cells
- Hybrid technologies
- Vehicle Noise, Vibration and Harshness
- Emission control
- Vehicle integrated with electronic technology
- Vehicle Aerodynamics
- Modern manufacturing process for automotives
- Other related areas

TOPICS ON CIVIL ENGINEERING

- Alternate Materials and Advanced Techniques
- Sustainable materials and Techniques
- Earthquake Resisting Techniques
- Innovative construction Practices
- Emerging Technologies in Civil Engineering
- New Methods for Sustainable Development
- Intelligent Transportation System
- Concepts of Smart City
- Solid waste Management
- Pollution monitoring and controlling systems
- Other related areas

CALL FOR PAPERS

Authors are requested to sent their paper to

jctnationalconference@gmail.com

The papers submitted will be peer reviewed and evaluated based on relevance to the conference.
The selected papers will be refer to Anna University Annexure - I and Annexure - II journals (If Author willing)

AWARENESS PROGRAM ON “SOFTWARE TESTING” ON 15TH FEBRUARY 2017 BY DEPARTMENT OF CSE, JCTCET

The Department of Computer Science and Engineering association with CSI-JCT Student Branch, Tamilnadu organized an “**Awareness Program on Software testing”** on 15th February (Wednesday), 2017. Mrs.Maria Roslin was the resource person for the occasion. The seminar commenced with the inaugural function held at seminar hall, was hosted by the Department of CSE. Dr. G.Rajiv Suresh Kumar, Head of the CSE Department, addressed the gathering and Vote of Thanks by Mr.K.Sivakumar, Asst. Professor, CSE Department. About 65 students participated in this seminar.

The resource person started the session by giving an introduction about the general concept of Software testing. She explained about the needs and importance of testing software. The concept was illustrated using a video. The various aspects of software testing were projected using a presentation. There was an interactive session which made a positive impact on students mind towards software testing. Collectively, all the sessions were really interesting and useful to guide the students which they may have to face in future.

REPORT ON THE 2-DAYS NATIONAL LEVEL WORKSHOP ON IoT (INTERNET OF THINGS)

The Department of Computer Science and Engineering association with CSI-JCT Student Branch, Tamilnadu organized a 2-Day National Level Workshop on "IoT (INTERNET OF THINGS)" on 8th and 9th February (Wednesday and Thursday), 2017 for the various streams of faculty members belongs to all the colleges and universities. Mr.Kumar Sharad and Mr. Ankit Raj of Intelogy Techno Solutions Pvt. Ltd., Delhi were the resource persons for the occasion.

The workshop commenced with the inaugural function held at seminar hall, was hosted by the Department of CSE. Dr. G.Rajiv Suresh Kumar, Head of the CSE Department, addressed the gathering and Vote of Thanks by Mr.K.Sivakumar, Asst. Professor, CSE Department. About 65 students participated in this workshop.

The forenoon session of the first day began with the resource person introducing the gathering to the Introduction of IoT. Furthermore, details about the Arduino software were discussed. Projects such as LED Blinking, Brightening and Fading of LED along with the timer, IR Sensing, BlueTooth RC Car Controller, Moisture Sensor and LED Lightening using Blynk app through IoT and various other aspects of Internet of Things were projected with the help of workshops and short description on real time projects. The session was made interactive with the use of online applications like Twitter, Gmail, etc during the program. Collectively, all the sessions were really interesting and useful to guide the students of various institutions which they may have to face in future.

The afternoon session of the second day was started by conducting a competition to the participants, followed by producing a feedback about the session. The session ended with the distribution of certificates to the participants by our Principal.

THIRD NATIONAL LEVEL CONFERENCE BASED ON RECENT TRENDS IN INFORMATION COMMUNICATION AND ELECTRICAL TECHNOLOGIES

This report is to brief the Third National Level Conference based on "Recent Trends in Information, Communication, and Electrical Technologies" conducted by the circuit departments of our college on the 2nd of April 2016. The inaugural function started with a prayer song sung by the CSE students. This was followed by the lighting of the Kuthuvilakku. The gatherings were welcomed by the Head of the Electronics and Communications Engineering Department, Prof. V. Lakshmipathi. The Chief Guest of the function Thiru. D. Mohan Kumar, CEO, Skypro Technologies, waswelcomed with a bouquet during the welcome address.He was later honored with a memento and a shawl by the Principal, Dr. G. Ramesh. The proceeding for this conference was handed over to the other dignitaries by the Head of the Computer Science and Engineering Department, Dr. G. Rajiv Suresh Kumar, which werereleased by the chief guest and the principal. The conference report was rendered by the Head of the Computer Science and Engineering Department, Dr. G. Rajiv Suresh Kumar, which referred to the experience gained from the previous conferences, the number of papers received and the number of papers selected. The presidential address was given by Dr.G.Ramesh, Principal, JCT College of Engineering and Technology. He explained the necessity of Leadership, the importance of using the talent one possesses at the right time, and finally briefed the students with the significance of technology in today's life. The chief guest profile was read by the CSI Student's Branch chairman, Mr.Sudeesh Kannath of CSE IIIrd year. The inaugural address of the function was given by Thiru, D. Mohan Kumar, CEO, Skypro Technologies, Bangalore. He had a very interactive session with the students regarding the latest trends and advancements in technologies. He mentioned the importance of IoT (Internet of Things) with real time examples. The vote of thanks for the inaugural function was given by Prof. Deeban Chakkarawarthi G of the CSE department. The gathering were given refreshments and then directed to their respective presentation halls. The certificates for the students were provided in the evening and the event ended successfully.

GUEST LECTURE REPORT

The student Association e'LIBERO **2016-17** of Electronics and Communication Engineering department conducted a Seminar on the **TOPIC "Digital Image Processing"** in JCT college of Engineering & Technology on the Forenoon of 24.03.2017 by 10.00 A.M at GORDON-MOORE VLSI Design lab.

The Guest speaker was **Mrs.Dr.Bharathi,Professor,Kumaraguru Colege of Technology,Coimbatore,** and she addressed the basics of images,colour Perception and electromagnetic Spectrum. Also she addressed about image sampling and Quantization.She explained clearly about phase resolution,spatial resolution and three levels of digital image processing.DIP's applications were sorted as example which are used in real life biometric attendance,object or face recognition, life on any planet etc... A live and effective interaction was done between the students and the guest.

Finally, a memento was given by Mr.Dr.V.J.Arul Karthick, HOD of Electronics and Communication Engineering on behalf of ECE Department and JCT College.

REPORT ON THE WORKSHOP ON MOBILE APPLICATION DEVELOPMENT

This report details the workshop on mobile application development held for the second and third year students of the computer science and engineering department, conducted on the 19th and 20th of February. The resource people from the industry were Ms. Sangeetha Ramaswamy and Mr.N.Ganesh of XPLORE IT CORP, Coimbatore, who were welcomed with a welcome address by the Head Of the Department, Dr. G. Rajeev Suresh Kumar. The session was started with a brief introduction to android application. They guided the students from the scratch. They gave the students a brief introduction to Java and taught how to run the application on the very first day. During the next day (20/02/2016), they introduced the students to all the basic functions like buttons and fields. They made it a point to make every student understand the basic concepts of android by explaining the standard structure of an android application. Finally, the vote of thanks was proposed by Prof. K. Siva Kumar.

REPORT ON FIVE DAYS VALUE ADDED COURSE ON SOFTWARE TESTING

The Department of Computer Science and Engineering organized five days value added course on "Software Testing" from 20th June 2015 to 26th June 2015 for the students of III year and IV year CSE. Mrs. Maria Roslin, Software Testing Trainer, Proprietor of JMJ Institute for Software Training, Coimbatore was the resource person for the occasion. The program started with welcome address given by Mr. K.Sivakumar, Assistant Professor (Sr.G), Computer Science and Engineering.

The session started by introducing the importance and needs of software testing in IT field. The trainer highlighted the systems development life cycle (SDLC), also referred to as the application development life-cycle which is used in systems engineering, information systems and software engineering to describe a process for planning, creating, testing, and deploying an information system. The systems development life-cycle concept applies to a range of hardware and software configurations, as a system can be composed of hardware only, software only, or a combination of both. She also concentrated on automation testing. Next day she started the session highlighting recovery scenarios that is to recover from unexpected events and errors that are occurred in the test environment during run session, we can use Recovery Scenario Manager. For good recovery, error must be known the occurrence is unknown. On third day she concentrated on configuring web driver in eclipse. She illustrated that by using practical classes. On forth day she illustrated various operations on web driver using practical classes which was very helpful for the students. On last day of the value added course she concluded by illustrating about J-meter and its operations. She highlighted Introduction, Components, Test Plan, Thread Groups and Workbench of J-meter.

The course was concluded with clarifying questions raised by students and students also gave feedback about the course. Vote of thanks given by Mr.K.Jason, Assistant Professor, Computer Science and Engineering.

ABOUT THE INSTITUTION

Shri Jagannath Educational Health and Charitable Trust was established by renowned and philanthropic people with an objective of providing education to all especially the downtrodden and rural population. Considering the growing demands for technical education in the country, The Trust has started an engineering college namely **JCT College of Engineering and Technology** in Pichanur, Coimbatore from the academic year 2009-2010.

Students will be encouraged to get equipped and sensitized to understand full implications of their decisions, actions and their innovations. The college promotes Technical Education to meet the requirements of Industrial arena, which takes into account the demands of industry and R&D institutions in the context of global concern at the threshold of the twenty-first century.

ABOUT THE DEPARTMENT

In order to meet the growing demand for food technologists our institution has established bachelors degree in food technology in the year 2014.

Food technology is the application of food science in processing, manufacturing, and preservation of food products. The food technologists study the chemical, physical and microbiological makeup of the food when it is processed, preserved, packaged and stored. The food processing industries manufacture a large variety of food products. Food technology courses can be a good career option.

SCOPE

Food processing industry is rapidly growing in India and several employment opportunities are available in various industries. There is good scope of food technology courses which offer numerous job opportunities in various areas.

In India food processing industry is gaining momentum as the consumer food industry, which includes pasta, breads, cakes, pastries, corn flakes, ready to eat and ready to cook products, cocoa products, biscuits, soft drinks, beer, alcohol beverages, mineral and packaged water and segment of consumer foods is seeing an upward trend.

The main objective of this conference is to provide a forum to present and discuss innovation in the field of food biotechnology and processing to meet the needs of humankind sustainability, in line with the theme of the conference "***EMERGING TRENDS AND APPLICATIONS IN FOOD BIOTECHNOLOGY***" sponsored by Department of Biotechnology, New Delhi. We believe that this conference can become a platform for critical discussion, potential solutions and thereby promoting recent innovations in food biotechnology in finding new and more sustainable ways of addressing food production and security issue to meet the need of growing population and changing lifestyle.

CALL FOR PAPER & FOSTER ON

- Biotechnology in food processing, packaging and quality control
- Food fermentation and bio-process engineering
- Potential health benefits of probiotics and functional foods
- Biotechnology as diagnostic tool in food safety
- Recent advances in food technology

One Day Seminar On Time And Stress Management In corporate Culture

INVITATION

About The College

JCT College of Engineering and Technology started in the year 2009 and run by Shri Jagannath Educational Health and Charitable Trust with the congenial and well-developed college campus. Under the able guidance and patronage of Thiru. S.A. Subramanian, Chairman Shri.R.Durga Shankar, Secretary. The college has developed excellent facilities and resources such as spacious classrooms, seminar halls, well-equipped laboratories, workshops, well-stocked libraries, dedicated high speed broadband Internet connectivity and well-qualified faculty. The vision of the institution is to produce high caliber socially responsible engineers. The institute offers nine UG and four PG programmes in Engineering & Technology.

About The Department

The Department of Mechanical & Automobile Engineering was established during the year 2009 & 2012 and offers both UG and PG Programmes. It has good infrastructural facilities which include Manufacturing Technology I &II, Kinematics & Dynamics, Metrology & Measurements, CAD/CAM, CNC, 2&3 Wheelers, Automotive Pollution Control, Automotive Fuels & Lubricants, Automotive Engines and Automotive Electricals & Electronics Laboratory. The Department laboratories are equipped with the latest machinery and equipment and latest computer software. The Department has well qualified and dedicated faculty members in various specialized areas of Mechanical and Automobile Engineering. The department is approved by ISO.

Introduction

One Day Seminar On **Time And Stress Management In corporate Culture** aims for exposing the faculty members and participants to the fundamentals , behavior, performance and its applications in Mechanical & Automobile Engineering. It provides an in-depth design and analysis of models and demonstrates their applications in real world problems.

Resource Persons

The lecture will be delivered by the expert Mr. Krishna Kumar from PSG Industrial Institute Coimbatore.

FACULTY DEVELOPMENT PROGRAM

TITLE : **TIME AND STRESS MANAGEMENT AND CORPORATE CULTURE**

GUEST SPEAKER : **Sri.Krishna Kumar,**

Senior Training Officer, PSG Industrial Institute, Coimbatore.

DATE &TIME : **25/06/2015&11.45Am to 1.15Pm.**

PARTICIPANTS : **All Faculty Members.**

As a part of Faculty Development Program the Department of Mechanical engineering has organized a one day seminar on Time and Stress Management and Corporate Culture. The resource person was Sri.A.Krishna Kumar, senior training officer of PSG industrial institute, Coimbatore. The program was conducted from 11.45 am to 1.15 pm on 25th June 2015 in the seminar hall of JCT college of Engineering and Technology. All the faculty members of JCT College of engineering and technology participated in the seminar.

During the first session of the seminar pertaining to Time and Stress Management, the Resource person explained the importance of Personality Development by developing one's own personal ability with knowledge, skills and efforts quoting numerous examples for easy understanding and strict adherence. The participants were taught prime qualities required for Personality Development such as communication skill, presentation skill, problem solving techniques, decision making skills, tuning and accepting skill and team work combined with interpersonal skills. The need to adapt the risk management techniques comprising of strength, weakness, opportunities and threatening of day-to-day life was explained by him in detail. He also enlightened the difference between hard work and smart work and advised to be productive and busy. Doing right things at right time with effective utilization of time and Word, moment and time can never be retrieved and hence motivation, learning, confidence and discipline are most important factors while planning.

During the second session, Sri.A.Krishna Kumar explained about how to understand and develop corporate culture among themselves. He taught corporate culture and related to different types of group-play games. The participants found both the sessions very useful.

One Day Workshop On ANSYS Softwares With Its Demo & Application

INVITATION

About The College

JCT College of Engineering and Technology started in the year 2009 and run by Shri Jagannath Educational Health and Charitable Trust with the congenial and well-developed college campus. Under the able guidance and patronage of Thiru. S.A. Subramanian, Chairman Shri.R.Durga Shankar, Secretary. The college has developed excellent facilities and resources such as spacious classrooms, seminar halls, well-equipped laboratories, workshops, well-stocked libraries, dedicated high speed broadband Internet connectivity and well-qualified faculty. The vision of the institution is to produce high caliber socially responsible engineers. The institute offers nine UG and four PG programmes in Engineering & Technology.

About The Department

The Department of Mechanical & Automobile Engineering was established during the year 2009 & 2012 and offers both UG and PG Programmes. It has good infrastructural facilities which include Manufacturing Technology I &II, Kinematics & Dynamics, Metrology & Measurements, CAD/CAM, CNC, 2&3 Wheelers, Automotive Pollution Control, Automotive Fuels & Lubricants, Automotive Engines and Automotive Electricals & Electronics Laboratory. The Department laboratories are equipped with the latest machinery and equipment and latest computer software. The Department has well qualified and dedicated faculty members in various specialized areas of Mechanical and Automobile Engineering. The department is approved by ISO.

Introduction

One Day Workshop On **ANSYS Softwares With Its Demo & Application** aims for exposing the faculty members and participants to the fundamentals , behavior, performance and its applications in Mechanical & Automobile Engineering. It provides an in-depth design and analysis of models and demonstrates their applications in real world problems.

Resource Persons

The lecture will be delivered by the expert Mr.M. Kathirvel & Mr. Karthikeyan from CAD Technologies Coimbatore.

WORKSHOP ON "RESENT TRENDs IN EMBEDDED SYSTEMS" BY THE ASSOCIATION OF ELECTRONICS AND COMMUNICATION ENGINEERING (e'LIBERO)

The association of Electronics and Communication Engineering department (e'LIBERO) of JCT College of Engineering and Technology, Pichanur has organized a Workshop on "Resent Trend in Embedded Systems" on 23.08.2014.

The guest speaker, Mr. P. Kishorkumar, Project Engineer, Vee Eee Technology, in his lecture the importance of Embedded system in ARM processor along with its applications. The lecture made the students understand the concepts of Embedded to the greatest extent as the speaker explored his proficiency over recent microprocessor and microcontroller techniques.

Mr. P. Kishorkumar ended his lecture by explaining the importance of morality in engineering world listing various professional ethics concepts. The lecture went on live along with practical classes and interactive sessions related to ARM Processor.
