Report - World aids rally 2018

The world AIDS rally program is initiated by District AIDS prevention and control unit (DAPCU) Coimbatore and NSS team of JCTCET on 03.01.2019. The program was inaugurated by our Principal Dr.G.Ramesh with a short speech given below.

AIDS (Acquired Immune-Deficiency Syndrome) is caused by a virus called Human Immunodeficiency Virus or infamous as HIV. It makes the victim more prone to infections, which ultimately can be fatal. HIV attacks CD4 type of White Blood Cells in blood and gradually kills them. The CD4 type of WBC helps us to fight against various infections. Once they are destroyed our body's resistance power to fight infections goes down and person suffers from lots of infections. This end stage of HIV infection is called as AIDS. It takes many years for AIDS to develop and till that time infected person usually remains healthy as there is no visible symptoms.

- There were approximately 36.9 million people worldwide living with HIV/AIDS in 2017. Of these, 1.8 million were children (<15 year old)
- An estimated 1.8 million individuals worldwide became newly infected with HIV in 2017 – about 5,000 new infections per day. This includes 180,000 children (<15 year old). Most of these children live in sub-Saharan Africa and were infected by their HIV-positive mothers during pregnancy, childbirth or breastfeeding.
- In 2017, 21.7 million people living with HIV (59%) were accessing antiretroviral therapy (ART) globally, an increase of 2.3 million since 2016 and up from 8 million in 2010. HIV treatment access is key to the global effort to end AIDS as a public health threat.
- AIDS-related deaths have been reduced by more than 51% since the peak in 2004. In 2017, 940 000 people died from AIDS-related illnesses worldwide, compared to 1.4 million in 2010 and 1.9 million in 2004.

The rally was started from Pichanur and ended at K.G.Chavadi. Various department students from our college around 1200 were participated in the rally. The students displayed posters and plug cards during the rally, regarding the AIDS awareness and the contents below.

The virus can be transmitted to others in number of ways. Unprotected sexual intercourse with infected person, transfusion of infected blood or blood products, infected mother to her baby during pregnancy, birth process and through breast – feeding, Use of infected needles and instruments without sterilization or sharing of needles and syringes by HIV drug addicts.

Finally the rally ended at K.G. Chavadi. The program was organised along with Madukkarai panchayat, Coimbatore and (DAPCU) Coimbatore

NSS STUDENTS ORIENTATION PROGRAMME

NSS STUDENTS ORIENTATION PROGRAMME ORGANIZED BY JCT COLLEGE OF ENGINEERING AND TECHNOLOGY FOR STUDENTS OF GOVERNMENT HIGHER SECONDARY SCHOOL, PICHANUR ON 26TH SEPTEMBER 2018

NSS Unit of Government Higher Secondary School, Vazhappanur Village visited JCT College of Engineering and Technology campus for one day orientation about the higher studies and Tree Plantation activity on behalf of NSS Unit. JCT College of Engineering and Technology organized motivational class for the NSS students.

The Forenoon session started with health and hygiene and higher studies. The Session handled by Mr. Subin Subramanian, Training and Placement coordinator of JCT College, after the session NSS Volunteers clarified their doubts. After the Lunch break they have visited the Polytechnic College for the tree plantation. The session was followed with queries answered by the Resource personnel. The programme was concluded with a student's feedback and end with singing of the National Anthem.

Raising Awareness about Gender Equality
Awareness program report

The NSS of JCTCET and Madhukarai Town panchayat, pichanur, Coimbatore conducted a awareness program on **Raising Awareness about Gender Equality** at our college campus, Coimbatore on 12.09.2018.

The NSS Co-Ordinator, faculty members and 457 students of various department were attended the program. Mr.Srikumar.M AP/ S&H addressed the gathering. Our principal delivered the speech regarding the importance of gender equality.

Key points:

- ❖ Gender equality refers to the right of women and men to have the same opportunities for the achievement of important goals in society such as education, employment and income and to contribute to political, social, and cultural development at all levels.
- ❖ Strengthen women's security in crisis: Stop violence against women.
- ❖ Advance gender justice: Provide justice and security for women.
- ❖ Expand Women's Citizenship, Participation and Leadership: Advance women as decision-makers.
- ❖ Build Peace with and for women: Involve women in all peace processes.
- ❖ Promote gender equality in disaster risk reduction: Value women's knowledge and experience.
- ❖ Ensure gender-responsive recovery: Support men and women to build back Better.
- ❖ Transform government to deliver for women: Include women's issues in the national agenda.
- ❖ Develop Capacities for Social Change: Work together to transform society.

Our NSS Coordinator Dr.G.Magesh delivered vote of thanks.

Knowledge and Perception on "Plastic Free Future"

Awareness program report

The NSS of JCTCET, Coimbatore conducted a awareness program on **Knowledge and Perception on "Plastic Free Future"** at our campus on 09.02.2019.

The NSS Co-Ordinator, faculty members and students of various departments attended the awareness program.

Key points:

- ❖ Around the world, one million plastic drinking bottles are purchased every minute, while up to 5 trillion single-uses plastic bags are used worldwide every year. In total, half of all plastic produced is designed to be used only once — and then thrown away.
- ❖ plastic will contribute greenhouse gases in the equivalent of 850 million tons of carbon dioxide (CO₂) to the atmosphere.
- ❖ The Marine Conservancy has predicted the decomposition rates of several plastic products.
- ❖ Plastic pollution on land poses a threat to the plants and animals - including humans who are based on the land.
- ❖ Plastic pollution has the potential to poison animals, which can then adversely affect human food supplies.
- ❖ Due to the use of chemical additives during plastic production, plastics have potentially harmful effects that could prove to be carcinogenic.
- ❖ Plastics can also be used as vectors for chemical contaminants such as persistent organic pollutants and heavy metals.

Finally, vote of thanks was given by Dr.G.Magesh on behalf of the NSS and JCTCET and the awareness program ended successfully.

Report on Awareness Against Drug

On 01 Feb 2018, Awareness against Drug, Illicit Trafficking and World No Tobacco Day was observed at JCTCET, Coimbatore, The World No tobacco day was also observed together. Expression of its determination to strengthen action and cooperation to achieve the goal of an international society free of drug abuse."The main objective of raising awareness among public on drug abuse, Illicit trafficking and harmful effects of Tobacco use. The theme of the day was: "Listening to children and youth is the first step to help them grow healthy and safe" and "Tobacco a threat to Development" for World no Tobacco Day.

Effective responses to the world drug problem require inclusive and accountable institutions of criminal justice, health, and social services to work hand in hand to provide integrated solutions, in line with the international drug control conventions, human rights obligations and the Sustainable Development Goals," says the United Nations.

Report-Seminar on Awareness about the HIV/AIDS and TB

JCT college of Engineering & Technology on 30.11.2018 by 2.30 p.m at our seminar hall organised the **Seminar on Awareness about the HIV/AIDS and TB** around 500 students form various departments participated during the session the importance of protecting human life and the need of precaution to be taken are explained in detail

According to the Centers for Disease Control and Prevention, young people aged 13–29 accounted for 39 percent of all new HIV infections in 2009. HIV is a disease that does not discriminate. Anyone can contract this disease, which is why it is important for students to be AWARE of how to protect themselves and prevent the transmission of HIV. HIV is found in specific human body fluids.

Infection of HIV by any of the following fluids enter your body:

- Blood
- Semen (cum)
- Pre-seminal fluid (pre-cum)
- Breast milk
- Vaginal fluids
- Rectal (anal) mucous

Signs and symptoms commonly seen in the early stages of HIV include:

- Fever
- Chills
- Rash
- Night sweats
- Muscle aches
- Sore throat
- Fatigue
- Swollen lymph nodes
- Ulcers in the mouth

The HIV transmission methods are explained clearly during the seminar

Our NSS team organizes **BLOOD STEM CELL DONATION** Awareness program on 18/09/2017-11.30 am at seminar hall. Those who are interested are asked to attend and register their name as donor on that day without fail.

NSS COORDINATOR

PRINCIPAL

Dear Sir,

Greetings from DATRI!

Most of us have witnessed Blood Donation Camps and many have donated blood. DID you know that you can also donate your Blood Stem Cells to save a life?

>>>>>Blood Cancer is curable. There are 1000s of patients suffering from blood cancer and other fatal blood disorders. <<<<<<

They are waiting for their life-saving blood stem cell donor.

Read on to know how you can GIFT A LIFE.

Some Facts

- There are 40 adults diagnosed with fatal blood disorders in India every day.
- More than 10,000 children are born with Thalassemia every year.
- A blood stem cell transplant can cure over 100 blood disorders.
- But, the probability of finding a matched blood stem cell donor is very low. Only 1 in 10,000 to 1 in 2 million find a match.
- If found to be a match, you could be their only cure. You may be their only hope of survival.

Agenda for the day:

1. Walk into DATRI Blood Stem Cell registry's booth when you are free and have a small chat with their associate to have a basic understanding on being a potential donor.
2. Alternatively, attend the awareness presentation by DATRI personnel
3. For registering as a prospective donor, you will then have to fill in a registration form & sign a consent form.
4. They will collect a cheek swab sample from you.

Post Action:

1. The cheek swab is sent for HLA Typing to determine your genetic code and stored in the registry.
2. Your HLA type can be a match for a patient at any point of time post registration
3. If you are found to be a match you will be contacted to donate your blood stem cells.
4. There are two ways to donate blood stem cells – via bone marrow (BM) donation or through peripheral blood stem cell (PBSC) donation
 - In case of PBSC donation - this is a simple outpatient procedure where your blood stem cells will be collected and transplanted to the patient.
 - In case of BM donation – this is performed under general anesthesia just before donating. The blood stem cells are harvested from the hip bone in this method.

Dear Sir,

This is regarding the drive conducted in JCT college of Engineering and Technology on 18/09/2017. The response from your students was wonderful. We were able to reach out to 30 number of volunteer blood stem cell donors registered with DATRI. This is a great step for the University/College and for DATRI.

We would like to thank you immensely for giving this opportunity.

Some students would have not registered on the occasion due to time constraints and impending questions. We will be happy to address them and clarify any questions on blood stem cell donation anytime. Please share the contact details email is contact@datriworld.org and toll free number 1-800-300-DATRI (1-800-300-32874).

It is our kind request that you keep us informed on future events and occasions that might be a good platform to further spread awareness about the cause.

A big thank you for this partnership. Looking forward to many such interactions with your esteemed University/College.

Thank you.

Regards,

Swathika

Date : 07 & 08.09.2017

The aim of this program was creating awareness about sanitation on behalf of Swatch Bharath India, to the public living in Pichanur village and to the students of JCTCET. The prayer song was sung by Pranesh .M final year Mechanical Engg. The program was inaugurated by our Principal Dr.G.Ramesh. Mr.P.Radhakrishnan, Revenue Inspector, Madukkarai panchayat addressed the gathering and initiated the sanitary survey. Around 1000 students from various departments and 250 residents from the pichanur village were benefitted by this sanitary survey on both days 07 & 08.09.17.

Key points :

- The Water Analysis Laboratories established at Chennai and Coimbatore collects and examine water samples from various protected water sources to control pollution and contamination of drinking water.
- Air pollution surveys are also carried out around the industries to asses air quality.

SUSTAINABILITY

A plastic material is any of a wide range of synthetic or semi-synthetic organic solids that are malleable. Plastics are typically organic polymers of high molecular mass, but they often contain other substances. They are usually synthetic, most commonly derived from petrochemicals, but many are partially natural. Plastics are inexpensive, lightweight, strong, durable, corrosion-resistant materials, with high thermal and electrical insulation properties. Due to their relatively low cost, ease of manufacture, versatility, and imperviousness to water, plastics are used in an enormous and expanding range of products, from paper clips to spaceships. They have already displaced many traditional materials, such as wood, stone, horn and bone, leather, paper, metal, glass, and ceramic, in most of their former uses. In developed countries, about a third of plastic is used in packaging and another third in buildings such as piping used in plumbing or vinyl siding. Other uses include automobiles (up to 20% plastic), furniture, and toys. In the developing world, the ratios may be different - for example, reportedly 42% of India's consumption is used in packaging. A plastic bag, polybag, or pouch is a type of packaging made of thin, flexible, plastic film, nonwoven fabric, or plastic textile. Plastic bags are used for containing and transporting

goods such as foods, produce, powder, ice, magazines, chemicals and waste.

7 Easy Ways You Can
Replace Plastic in Your
Daily Life With Eco-
Friendly Options

1. Swap polythene for cloth
2. Bottle up

NSS AND MISSION MAKING SMILE CHARITABLE TRUST IN ASSOCIATION WITH CMC HOSPITAL COIMBATORE CONDUCTED A BLOOD DONATION CAMP ON 22.03.2017, JCT CET

JCT College of Engineering and Technology - National Service Scheme and Mission Making Smile Charitable Trust in association with Government Medical College Hospital, Coimbatore conducted a blood donation camp in the premises of JCT College of Engineering and Technology on 22.03.2017.

The blood donation camp was started at 10:30 am with Dr. G. Ramesh, Principal, JCT CET presiding the camp in the presence of Dr. S. Venkatesa Prabhu, HOD-Petroleum, Program Chairperson, Mr. Navneeth Rajesh Kumar, Secretary, Mission making smile charity trust, and Mr. M. S. Samuel Mourish, Event manager.

A well experienced medical team from the Government Medical College Hospital, Coimbatore arrived in the premises of JCT CET for the blood camp at 10:30 am. The camp was started with the active donors donating their precious blood. With flooding donors the blood donation camp continued till 2:30 pm at the seminar hall of JCT CET. A total of 86 units of blood were collected from the donors. All the blood donors were given refreshments including Juice, Biscuits, Glucose and Fruits.

Respected Sir/Madam,

Warm Greetings from District AIDS Prevention and Control Unit (DAPCU)

Sub: Requesting for Organizing Voluntary Blood Donor Campaign and Blood
Donation Camps - TANSACS - IEC - Red Ribbon Club (RRC) - Voluntary
Blood Donor Registration for the year 2016-17-Reg

Ref: The Project Director/TANSACS/.Ref No.5168/IEC/YP-RRC/2016 dated
08.09.16

Tamil Nadu State AIDS Control Society (TANSACS) has launched the online blood bank management system (<http://www.tngovbloodbank.in>) which helps public to access and to know about the blood stock position of Government Blood Banks on daily basis. It also provides opportunity for interested volunteers to register themselves as Voluntary Blood Donor. In order to strengthen the Voluntary Blood Donor Registry of the district, DAPCU has planned to organize as an activity in all Colleges in Coimbatore district. Therefore I am requesting you to support TANSACS programme for providing awareness on HIV/AIDS, organizing blood donation camps and registering students under Tamil Nadu portal (<http://www.tngovbloodbank.in>) as voluntary blood donors through NSS/RRC programme. In addition with that Blood grouping activity also done.

Kindly we expect your cooperation and support.

Thanking You,

Yours Faithfully,

RVM.Kumanan

NSS REPORT OF BLOOD DONATION/TESTING CAMP

On the 17th March, 2017, we the "JCT COLLEGE OF ENGINEERING AND TECHNOLOGY" organized a successful Blood Testing Camp in our Campus along with **DAPCU**, Tamilnadu AIDS control society & Tamilnadu state blood transfusion council.

Blood Donation is an important and foremost sense of duty of every human being which saves the life of many humans who needs it in urgent situation. The team who supports us for Blood donation camp was came from **DAPCU** & Tamilnadu AIDS control society with the reference of & Tamilnadu state blood transfusion council. During Blood Donation all NSS/RRC/YRC volunteers and college staff supported very well throughout the whole activity.

Mr. RVM. Kumaran, District programme maganer i/c from **DAPCU** supported through out the whole camp take place in college with reference to our respected Principal Dr. G.Ramesh sir to promote and encourage to all students not only for Blood Donation but also for blood testing awareness.

The Camp was started exactly at 9.30 am and was continued until the 2.00 pm. All the students as well as outsiders gave a excellent response for the Blood Donation Camp and blood testing awareness. It was pleasure to work for such an activity to all of us on that day and the Camp was successfully accomplished with everyone's support.

Total No. Benificiaries = 952.

It is a proud feeling after completing this blood donation camp. As our college is in rural area & grooming day by day, we are planning more eagerly for such kinds of events.

Report on Campus cleaning(JCTCET)

The NSS unit of our college conducted a campus cleaning programme on 10th August 2015 under the guidance of our beloved principal Dr.G.Ramesh at our college premises. All the NSS Volunteers and around 785 students of JCTCET were engaged in this cleaning programme.

All the NSS Volunteers and students were engaged in this cleaning programme. The NSS officer divided the NSS Volunteers into several groups. Each group members were allocated with a particular area for cleaning. Three groups were asked to collect all the stones from the ground separately in different sacs. The renewable such as dry leaves, twigs, papers etc. and nonrenewable wastes such as carry bags, plastic items etc. were collected separately. The renewable waste was collected and burnt. At the end the NSS volunteers as well as the students were provided snacks.

Submitted to the Principal

I am very happy to inform you that our college NSS team went to **Shri Anbalayam Orphanage home** in vadavalli at 12.30 pm. They received us with smiling face.

After a small introduction we donate the things and lunch to the hopeless with the help of NSS Volunteers and they received the things from us from their heart. After completion of the NSS service programme we get back to the college at 4.40 pm.

All the events were done well.

Thanking you,

yours faithfully,

Dear Sir,

We would like to conduct a voluntary blood donation camp and free blood grouping camp for the staff and students of your College.

We issue blood to over 250 Hospital and Nursing Homes in Coimbatore as well as neighbouring districts and even Kerala. In turn, we depend on blood donation camps to enable us to meet the needs of thousands of patients. The blood of all voluntary donors is screened for the following transmittable diseases before being issued to a patient : HIV (AIDS), HBsAg (hepatitis B), HCV (Hepatitis C), VDRL (Syphilis), MP(Malaria), Hb (Haemoglobin) and SGPT (a liver function test).

All donors are given a certificate of appreciation and a donor I.D card. The donor card entitles the donor to avail of a 25% concession on all laboratory investigations, X-rays and US scan and also free consultation at K.G Hospital for a period of one year from the date of donation, on production of their I.D. Cards.

We look forward to your favourable reply.

Thank you,

Yours sincerely
