Manager HR (Training)

ONGC Mangalore petrochemicals Limited (OMPL)

MSEZ Permude,

Mangalore-574509

Respected Madam,

This is an email requesting your kind permission for an industrial visit to your petrochemical plant. As per our university norms, engineering students are expected to visit prominent industries and companies for an exposure to the latest trends. Consequently the **second-year students of petrochemical department,pursuing Semester 3,** of our college, desire to visit**ONGC Mangalore Petrochemicals Limited** for a day, preferably, 2 August 2019. The total number of students would be approximately 40 students accompanied by 2 faculty members.

At this juncture, it is a pleasure for me to introduce to you, our college and department on behalf of the students and faculty. **JCT College Of Engineering and Technology**, is a pioneering engineering institute in Coimbatore, affiliated to **Anna University, Chennai,** approved by **AICTE , New Delhi**, managed by **Shri Jagannath Educational Health and Charitable Trust,Chennai,** offering 9 undergraduate course and 4 post graduate courses in engineering stream. Our institution is accredited by **NAAC** and the Department of CSE, Mechanical, EEE and **PCE(Petrochemical)** are accredited by **NBA.**

To visit **ONGC Mangalore Petrochemicals Limited** would be a golden opportunity for us to have an exposure to the real workstations, plants, machine and systems along with a chance to have a face to face session with technical or administrative experts of the organisation to ask questions and clarify doubts.

And also it would be a right set of circumstance to understand the company policies in terms of production, quality and service management providing us a chance to combine theoretical knowledge with industrial realities.

We would be immensely grateful to you if you could please allow us to visit the petrochemical plant on 2 August, 2019.

Thanking you.

Yours faithfully

Sandra Rose

Student coordinator

(On behalf of **II year PCE**)

Industrial Report

We, final years of computer science and engineering department of ICT college of Engineering and technology visited Taivandrum, Alapuzha and Kochi as part of Industrial visit. We started the trip on 17-08-2017 at 08:00 PM. We reached Alappey at 05:00 AM on 18-08-2017. After having breakfast we visited some of the places in Alappey. After Alappey we travelled to kochi at 11:00 am on 18-08-2017 After having lunch, we visited industry as a part of industrial visit. We visited Nestsoft Technologies at kochi. It was an IT company located in kochi. There a employee named Mr. Jilojose attended us. He explained and illustrated us about web designing. The various skills and disciplines in production and maintenance of website was well explained.

The illustration was very simple and

understandable.

After that we visited various places in trivandrum. The Industrial visit was very interesting

JCT COLLEGE OF ENGINEERING AND TECHNOLOGY

We the IInd Computer Science and Engineering students got an approval for IV. We planned it for a 3 day IV to Mysore and Coorg. We planed to visit Kaynees technologies as a part of it.

I would like ~~to~~ like to thank Dr G. Ramesh our principal, Dr Rajeev Suresh Kumar our HOD of computer science and Engineering, all the department staffs for approving our IV. We would like to thank Mr. Deeban Chakkaravarty, Mr. Ravi kumar and Mrs. Rufina for supporting and accompanying us on our journey

We 32 students along with three of our department staff started our journey on 24-10-17 at 8 pm. We reached mysore, our first destination by next morning. After refreshment we set our journey to 'Kaynees Technology'. We reached at the company by 11.00pm. At the entrance gate one of the officials explained us about the history and other details on the company. As we were entering into the company we were asked to remove our shoes. Kaynees ~~was~~ is a manufacturing company. They mainly manufactured boards. After entering the company one of executive explained us about the each process. These process were done inside a special room. When entering to this room they all weared gloves and a cover above their shoes. This was to avoid dust particles entering in. Any dust particles can cause full damage to board and systems. Each process was carried out very carefully and observed by experts. When these experts verifies these boards are ready for its

We left the company by 2pm. After having lunch went to mysore zoo. All of us explored zoo for hours. At reaching zoo by 3.pm we all walked inside the zoo for 2 hrs and saw every species in the zoo. We returned back to hotel. On the way back we saw mysore palace from distance, as dusshera festival was going on the palace was lighted, it was very beautiful to see. But we didn't go to the palace. We reached hotel by 9.

Next day we started our journey by 8. We first visited mysore palace. From there we explored the palace and observed lots of things. As the festival was celebrated there were several programs going on. We spend almost 3 hours at there. After visiting palace, we set our next target destination to Chamundi hills. We reached Chamundi hills by 4.45pm. At the hills We visited temples mainly, after visiting temples, we went to the view point. It was really a wonderful sight. we could see whole mysore from there. We then went to our next destination. Coorg. We reached Coorg by 9.

The Power Electronics Group (PEG) of Keltron is a pioneer in the field of UPS Systems in the country designing and manufacturing to a diverse range of applications

Keltron provides seismic qualified UPS Systems of up to 1000 KVA capacity based on state-of-the-art technology.

Prompted by the immense success in Power electronics during the past 30 years in the design, manufacture, testing, installation, commissioning and maintenance of UPSs, Battery chargers, and similar power equipment, Keltron has now embarked into the renewable energy sector

The Government of Kerala, by a Government Order has identified Keltron as a nodal agency for implementation of solar power projects in Government Offices, Industries Department and LSGD

Since entering this segment, PEG has designed, supplied, installed, tested and commissioned more than 3 MWp Solar PV power plants all over Kerala. Keltron is also maintaining these projects for the last two years. PEG has developed solar Power Conditioning Unit (PCU) and the proto unit has undergone successful testing at TUV Banglore

Capabilities

- Design, manufacturing and installation of seismic qualified UPS Systems of up to 1000 KVA capacity
- Design and execution of solar power projects. Includes site survey, project design and sizing to suit customer needs.
- Design of grid-tied / off-grid systems or a combination of both.
- MNRE approved Channel Partner and empanelled manufacturer of Solar PCU.
- Nodal agency for implementation of solar power projects of the Government of Kerala

INDUSTRIAL VISIT REPORT

III YEAR ECE,

2014-2018 BATCH.

PREPARED BY,

DEEPIKA.R

720914106010

III YEAR ECE,

JCT COLLEGE OF ENGINEERING AND TECHNOLOGY,

PICHANUR,COIMBATORE.

On behalf of our Electronics and Communication Engineering department, we are thankful to principal Dr.G.Ramesh, JCTCET, Prof.V.Lakshmipathi, HOD-ECE and management of the institute for their good support and inspiration to allow us to arrange our first Educational trip to Mysore. In future we are eager to arrange more industrial visit across the country to gain knowledge and to beware with recent technology and market scenario by visiting different leading industries.

EDUCATIONAL TRIP TO MYSORE (11.08.16 to 13.08.16)

The trip started at 08:00 p.m. on 10th august 2016 (Wednesday). The travel agent is from Aynikkal Travels, Thrissur. Two night stay and food was arranged at HOTEL PLAZA, Opposite St. Philominas Church, Lashkar Mohalla, Mysuru, 570001

Industry:

ACE Components & ElectronicsPvt., Ltd.,
Plot No. 12, Hootagalli Industrial Area, Mysore.

On the first day morning, we reached the industry and greeted by the manager Mr. S. Rathinam. Fortunately the founder and Managing Director of ACE Components was there to give a brief introduction about engineering and science behind the manufacturing of resistors.

The industry was started in 1983 by Mr.R.Sukumar, student of IIT Kharagpur to manufacture resistors which is various applications ranging from lab experiments to precision medical electronic equipment and satellites. After the brief introduction, we entered into the first phase of the manufacturing process which uses the raw materials like Benzene, Hexane and ceramic cylinders. They are processed under high temperature up to 1000 degree Celsius in cylinders. With the use of Benzene or Hexane Carbon particles are deposited over the ceramic cylinders (insulators). The carbon deposits determine the resistor value (Initial Resistance Value-IRV). In later stages, the IRV is altered according to the requirement by trimming process.

The subsequent stages like Capping, welding of contact leads, painting of colour coding with varnishing and packaging are done with the help of

automation with minimal man support. Many ranges and types of resistors are manufactured. Mr.R.Sukumar, Managing Director insisted our students to feel the components to understand better. This visit to the industry helps a lot to feel the components. The visit ended with a photo session.

The remaining days are spent by visiting the various historical places like

- **Srirangapatna**
- **Mysore Palace**
- **DaulatBagh**
- **The Art Gallery**
- **Chamundi Hills**
- **St.Philomina Church,**
- **Krishna Raja Sagar Dam (Brindavan Garden)**
- **Visveswarayya Mueseum**
- **Amusement park**
- **Zoo**

Finally after extensive shopping, we started to home on Saturday via Bengaluru and reached JCTCET at early morning 4:00 a.m. (Sunday-14.08.2016)

Respected Sir,

As a part of our student's education we are planned to visit your company (BSNL, Coimbatore), with a student strength of 20 and staff strength of 2 members. I request you to allow our students to visit your company on any one of these dates 27.3.17 to 30.3.17. So that our students may gain some knowledge about telecom sector which is their core engineering (Electronics & Communication Engineering). If it is possible to provide certificates, it will be very useful for the student's profile. Kindly do the needful.

Sir/Madam,

Sub: Dissertation- Project work of your B.E.(Petrochemical Engg.) students at CSIR-CECRI – reg.

This has reference to the applications dated 30.08.2016 of Mr.Arunmuthukuar.P and Mr.Anishkumar.R, B.E. (Petrochemical Engineering) students of your College / University to carry out their Dissertation- Project work at this Institute. In this regard, we wish to inform you that the above students have been selected for doing three months Project work at CECRI, Karaikudi during December 2016 – March 2017.

They have to carry out their Project work for a minimum period of three months (not less than 60 working days which is mandatory) and dissertation - project fee of Rs. 5,000/- + 15% Service Tax will be collected per student for three months work at CECRI. At the time of joining, each student has to bring a demand draft for a sum of Rs. 5,750/- (including ST) drawn in any nationalized bank in favour of "Director, CECRI" payable at Karaikudi. Only on completion of the prescribed period of dissertation- project work, we will issue the project completion certificate.

It is mandatory that they have to present the work report once in the internal monitoring meeting before the completion of the dissertation - project work.

Kindly inform the above students that they have to make their own arrangement for boarding and lodging.

On receipt of this letter, we request you to kindly depute the above students along with your acceptance letter. Their date of report may also be intimated to us on or before 02.12.2016.

Yours faithfully,

Dear Sir /Madam,

Sub: Requisition for the one day permission for Industrial Visit by our B.E Automobile Engg students during August 2015

The students of JCT College of Engineering and Technology Coimbatore are interested in visiting **POLLACHI RC BRANCH.** As part of curriculum, we take our B.E students regularly on industrial visit to reputed industries. Being the best RC unit in the Coimbatore, Pollachi RC branch is the most preferred installation to be visited by our Automobile Engineering students. We shall be thankful if you could kindly permit our Second and Third year B.E.Automobile students of Thirty Three (33nos), Fifty (50nos) and Four faculty members (4nos) to visit your plant on August Second week of 2015(Either 10^{th}/11^{th}/12^{th} (or) 13^{th}).

We assure you that our students will observe strict discipline and follow your rules and regulations during their visit and go through without disturbing your activities. We request you once again to offer your kind permission for our students to visit **POLLACHI RC BRANCH** and confirm the date of visit.

Thanking you,

Yours sincerely,

Industrial Visit Report

We started our journey from JCT college in the morning to Amaram-palayam water treatment plant. We reached there at 10:30 am. They give brief details about that treatment plant and how it works. We first saw a big tank where water is screened and collected before treatment plan process. We saw a big floculating tank, sand filters, Aeration tank, chlorination tank and tank for chemical treatments like acids & alkalies. We also saw a big schematic diagram of the water treatment plant which explains how each and every tanks are connected and how it works. chlorination is done to kill pathogens which survives during or after the treatment process. Before the treatment starts, from the source of water a screening is done to remove larger

Dear Ms. MANJU PRIYA C,

Congratulations! You have successfully made it through our selection process as intern and we are pleased to offer you an Internship with Skava Systems Pvt. Ltd ("Skava"), a wholly owned subsidiary of Infosys. This internship offer is made as per the specific request made by you and your educational institution, namely, **JCT College of Engineering and Technology** to help you get some practical training while you are still a student at the said institution and is not intended to create any **Employer-Employee** relationship or other elements of employment between you and Skava under any circumstances.

You will be assigned to **Skava Systems Private Limited** and will receive practical training, by working on projects given to you from time to time. During your internship at Skava you shall strictly observe and adhere to the rules, regulations, policies, instructions and guidelines issued from time to time. You shall not undertake any other training or assignment from or with any other company during your internship with Skava.

On your first day of work, you must sign, without modification, a Skava Systems Proprietary Information and Inventions Agreement, copy enclosed, which includes standard provisions regarding confidentiality, Intellectual Property and Competitive activities. Please find attached agreement.

Your internship shall be for a minimum period of **4 Months** effective from date of your reporting which shall not normally be later than **"February 15th 2016 to May 31st 2016"** or any further extension as may be agreed by **JCT College of Engineering and Technology** (your educational Institution) In the event that your actual commencement dates is different from the above; the date recorded in Skava's HR System shall be regarded as final. In case you fail to report by the due date, this offer shall automatically be withdrawn and cancelled.

During the period of your internship at Skava you shall be paid a lump sum monthly stipend of **Rs. 15,000/- (Rupees Fifteen Thousand per month)** subject to deduction of taxes and statutory dues as applicable. This stipend is paid by Skava merely to help you meet some of your expenses during the training period and is not intended to represent any compensation for any work.

BITSCRAFT

July 28th, 2014

CERTIFICATE

(To whomsoever it may concern)

This is to certify that **Miss Amritha karunakaran,** student of **B.E Electronics and Communication** from **JCT College of Engineering and Technology** has successfully completed her technical training in our organization. She had undergone her training from 23rd June 2014 to 28th June 2014 at the time of project execution.

PROJECT TITLE	STAND-ALONE SOLAR PHOTOVOLTAIC Led BASED LIGHTING SYSTEMS IN RAILWAY APPLICATIONS.
ORGANIZATION	BITSCRAFT
DURATION	One Week
DESCRIPTION: Stand-Alone Solar Photovoltaic LED Based Lighting Systems in railway application. Lighting system based on LED consumes less power, & is more efficient in saving energy. SPV module is used to convert solar radiation directly into electricity, battery Bank to store the electrical energy generated by SPV charge controller to maintain Battery charging. Solar charge controller shall use PWM charging technology. 15W white high powered LED's based luminaries are used as a light source to produce 1500 lumens (typical). We use buck or boost converters depending upon number of LED's connected in parallel or series.	

During the above period we found her sincere & hard working and she has taken proper initiative and efforts towards completing her training.

"WE WISH HER ALL THE BEST FOR HER FUTURE CAREER"

For BITSCRAFT

INDUSTRIAL VISIT REPORT

IV YEAR ECE,

2011-2015 BATCH.

PREPARED BY,

ADHMEGA.N.N,

720911106002,

IV YEAR ECE,

JCT COLLEGE OF ENGINEERING AND TECHNOLOGY,

PICHANUR,COIMBATORE.

On behalf of our electronics and communication engineering department,wears thankful to principal Dr.G. Ramesh,JCTCET, Prof.V.Lakshmipathi, HOD ECE, and JCTCET and management of the institute for their good support and inspiration to allow us to arrange our first "Educational trip to Hubli. In future we are eager to arrange more industrial visit across the country to Gain knowledge and to beware with recent techonology and market scenario by visiting different leading IT Firms. Our sincere thanks to Mr. Navin. Y Industrial Visit coordinator.

EDUCATIONAL TRIP TO HUBLI

18 SEPTEMBER 2014(PICHANUR-HUBLI);

We depart from JCT college of engineering and technology in bus arranged by ARUNA travels on 18 september at 08:00pm

19 SEPTEMBER 2014 (HUBLI):

Reached Hubli by 11.00 AM and went to the hotel to get refresh. then we went to take breakfast. After that we went to visit industry by 02:00 P. M. We went to Swarnagiri Wires and Insulations Pvt. Ltd by 03.00 P. M. There we learned about the manufacturing process of wires and the types of wires used. After viewing the company then we went to Chandramouleshwara temple and then we had our dinner and moved to lodge.

20 SEPTEMBER 2014 (SHIMOGA):

By early morning by 4:00 am we vacate the hotel and we started to shimoga. By 11:00 A.M. we reached shimoga & visited Keladi temple. After that we had our lunch & went to Gundavi bird Sanctuary. By 5:50 pm we came out & started to Ooty. By 09.00 P.M. we had our dinner and started our journey to Ooty.

21 SEPTEMBER 2014 (OOTY):

By early morning 6:00 am we reached Ooty and went to a hotel for refreshment. After refreshment by 08.00 A.M. we had our breakfast and

started to visit places in Ooty. First we went to dhodabetta by 09.00 A.M and after seeing it we moved onto boat house by 11.00 A.M. Then we had our lunch by 12.30 P.M near Ooty and headed to botanical garden by 02.00 P.m. Finally we went for shopping in Ooty and started from ooty to college by 06.00 P.M. Then we reached college by 10.00 P.M.

Ref : **Your Letter Ref-No. Email dt. 12-09-2014**

Dear Sir/Madam,

With reference to your above letter, we are pleased to accord our permission for visiting this Centre, as detailed below.

No. of Persons Visiting : 52 Students + 03 staffs

Date & Time of Visit : 16th September 2014 Time: 10:00 hrs to 16:00 hrs

Please see the information below :

(1) The Radio Astronomy Centre (RAC) is purely a research organization engaged in research & training Ph.D students in the field of Radio Astrophysics. It operates the Ooty Radio Telescope (ORT), which is an equatorially mounted cylindrical paraboloid of size 530 m long and 30 m wide. The visiting students will be shown a video show on the radio telescope and basics of radio astronomy. They can also visit the telescope site and watch the rotation of the telescope. If you are bringing students for any industrial visit, you may please note that **RAC** is not a factory. No transport or accommodation will be provided by this centre for the above visit. This visit is offered absolutely ***FREE of Cost.***

(2) Saturdays and Sundays are holidays for the centre & hence if you plan to visit this centre on Saturdays, Sundays and Govt. holidays, you will be able to watch only the video show.

(3) To reach the Centre, you have to follow Melcowhatty village route via Ooty Bus Stand – Boat House – J.S.S. Public School – Theetukkal and bring your vehicle up to our premises in order to avoid 2 km walk. Each visitor should have a **valid Identity** card issued by the College/Organization authorities. You are required to maintain strict silence and discipline in the campus.

Industrial visit report for II ECE

On 16/09/2014

Our industrial visit was held on 16/09/2014 and we started from college at 6.30am and reached to Radio astronomy Center in Ooty at 11.30am where they explained their station working and signal transmission & receiving.

Totally a student count of 44 was accompanied with 3 staff members. The number of boys present was 25 and the number of girls present was 19.

The Radio Astronomy Centre (RAC) is part of the National Centre for Radio Astrophysics (NCRA) of the well-known Tata Institute of Fundamental Research (TIFR) which is funded by the Government of India through the Department of Atomic Energy. The RAC is situated near Udhagamandalam (Ooty) in the the beautiful surroundings of the Nilgiri Hills and it provides stimulating environment for the front-line research in radio astronomy and astrophysics with its excellent and highly qualified staff and international reputations.

Over the 43 years, the ORT has produced many important astronomical results on radio galaxies, quasars, supernovae, pulsars, the interstellar and interplanetary media, etc. One of the most successful observational programs carried out for many years at Ooty was to determine the angular structures of hundreds of distant radio galaxies and quasars by the technique of lunar occultation. The application of this unique database to observational cosmology provided independent evidence against the Steady-State theory of Universe and supported the Big-Bang model of the Universe.The telescope is currently being used mainly for the

study of pulsars, radio recombination lines and interplanetary scintillations.

After viewing the centre students learned about the communication channel of the radio astronomy centre and the industrial visit was concluded by 4.00 P.M at evening. Finally reached college at 08.00 P.M.

15/09/2014

To whomsoever it may concern

This is to certify that the students of II year B. E. Electronics and communication Engineering (25 boys & 19 girls) and 4 staff members are the bonafide student and staff of this institute.

They have planned to visit the **Radio Astronomy Center, Udhagamandalam-643001** on **16/09/14.**

Manglore Refinery and Petrochemicals Ltd.

Introduction to the company :-

Manglore Refinery and Petrochemicals Limited, a schedule "A" and a subsidiary of ONGC is a start of art Grassroot refinery is located in a beautiful hill terrain, north of mangalore city in Dakshin Kannada region.

This Refinery has got a Versatille design with high flexibility to process Crudes of various API [American petroleum Industry] and with high degree of Automation.

Scanned by CamScanner

It's design capacity to process of 15 million metric tons per annum and have 2 hydrocrakers producing premium Diesel (High Cetane). It also has 2 CCRS producing unleaded petrol of high Octane

Before the acquisition by ONGC in march 2003.

It was joint venture oil refinery promoted by Hindustan petroleum corporation Limited

The products of this company is petroleum, Petrochemicals and Natural gas

The later expanded to the present capacity of 15 million tonnes per annum

Scanned by CamScanner

Refinery :-

The refinery was conceived to maximise middle distillates with capability to process light to heavy and sour to sweet crudes 24 to 46 API gravity

ONGC Acquired the total shareh of A.V. Birla and further infused equalit Capital of Rs. 6 billion thus making MRPL a majority - held subsidiary of ONGC

The lenders also agreed to the debt restructuring package proposed by ONGC which included, interalia, conversion upto Rs 36554884 core of their loans into equity.

Inside the MRPL :-

First inside the refinery, we saw the process of pre heating using the pre heaters and heaters. Then after this process the crude is sent in to the distillation column for the process of distillation. In this process the crude is first sent in to the bubble cap column and vaccum column. Then the distillation column it is sent in to the condensation column for the process of condensation. Then the final products are obtained we saw the petrol, diesel, paraffin, wax ... etc.

Scanned by CamScanner

Uses :-

From this industrial visit we learn more, how to refine the hydrocarbons in the crude oil.

For this visit it is very useful for our carrier. It is very useful for us in Mass transfer operations.

We learned how crude can be refined using in the process of distillation, adsorption, absorp and all other process.

We learned many things about the petrochemical process like fluidized, distillation

Scanned by CamScanner

Conclusion:-

We concluded that, we went to MRPL., for the industrial visit and We have learned many things over the process of the refining and condensing process.
